

Google Cloud : The Next Level

Interact with Google Cloud

Interact with Google Cloud

➤ Ways to Interact with Google Cloud.

GCP Web Console - Web User Interface.

GCP Cloud Shell - Command Line Tool.

GCP Console Mobile App - For IOS and Android.

REST API Based - For Custom Application.

Interact with Google Cloud

- **Web Console** - Web Based Administrative Interface to manage GCP.
- It is powerful tool but used for administrative tasks.
- Allows view of all Projects and Resources.
- Enable-Disable Resource REST API.
- Offers access to Cloud Shell.

Interact with Google Cloud

- **Cloud Shell** - Terminal base Interface.
- It is a way powerful as compare to Web - Interface.
- Allows user to access and command cloud environment via terminal.
- Include pre-install SDK and other Utilities.

Interact with Google Cloud

- **REST APIs** - Rest APIs are programmatic access to cloud resources.
- Most powerful way to interact with google cloud.
- Use JSON as interchange format.
- Use Oauth 2.0 for authentication.
- Mostly APIs include daily quota and rate limits, that can be raised by request.
- Many APIs are “Disabled” by default.

Hands On Demonstration

Thank You...

Don't be the Same! Be Better!!!
